

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRIMATI JAYAWANTI MEHTA): (a) and (b) The Government of Karnataka (GOK) have informed that in keeping with the recommendations of the High Level Committee constituted by them, it has been accepted by the State Government that no 'Escrow' facility is available to Independent Power Producers in the State. Therefore, GOK have conveyed that they will not be able to extend 'Escrow' facility to any of the IPPs including the 1013.2 MW Mangalore Power Project being implemented by M/s Mangalore Power Company.

(c) and (d) M/s Mangalore Power Company have informed that the Indian Financial Institutions including ICICI have expressed their inability to proceed with the financing of the project in the absence of an 'Escrow' or alternative bankable security mechanism.

**Production Capacity of Power in the Country**

1155. PROF. M.M. AGARWAL: Will the Minister of POWER be pleased to state:

(a) the total production capacity of power in the country, State-wise and power plant-wise;

(b) the demand and production of power in the country during the last three years, year-wise; and

(c) the additional capacity required to meet the country's demand?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRIMATI JAYAWANTI MEHTA): (a) The details of State-wise, power plants wise generation capacity are given in the statement (see below).

(b) The power supply position for the last three years is given as under:

Year	Energy Requirement (MUs)	Energy availability (MUs)	Peak Demand (MW)	Peak Met (MW)
1998-1999	446584	420235	67905	58445
1999-2000	480430	450594	72669	63691
2000-2001	507216	467400	78037	67880

(c) To meet the demand, as projected in 16th Electric Power Survey, up to the end of 11th Plan, the total capacity required to be added during 10th and 11th Plan, works out to 107000 MW approximately.

## Statement

*Production Capacity of Power-Plants in the Country, State-wise*

**Electrification of villages through renewable energy sources**

1156. SHRI S. RAMACHANDRAN PILLAI: Will the Minister of POWER be pleased to state:

(a) whether Government have fixed a goal of generating 10 per cent share in the additional power generation by the year 2012 which would work out to 10,000 MW;

(b) whether Government have also devised an action plan to electrify 80,000 villages over the next seven years through renewable energy sources; and

(c) if so, what steps are being taken to achieve both the targets?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRIMATI JAYAWANTI MEHTA): (a) to (c) Based on the findings of the 16th Electric Power Survey, it has been estimated that an additional capacity of 1,07,000 MW is required to be added by 2012 to meet the energy requirement of 975 BUs. The Ministry of Non-Conventional Energy Sources have prepared a Draft Renewable Energy Policy Statement which envisages 10% or 10,000 MW of the additional planned capacity to come from non-conventional energy sources by the year 2012.

There are about 79,000 villages as on 1.4.2001 which remain to be electrified in the country. Out of this, about 18,000 villages are in remote and in difficult areas. The Ministry of Non-Conventional Energy Sources proposes to implement a programme for electrification of villages in remote and difficult areas in the country
